“A clear eyed and unsentimental look at how farming has become relentlessly optimized by automation, markets and politics; factors that don’t always take into account the guy who’s actually driving the tractor . . . Genoways comes from a long line of Nebraskans himself, and . . . he writes with authority. [*This Blessed Earth*] is a reminder that the family farm will inevitably pass . . . But it’s also an affirmation that those farms existed for a purpose: to feed us all.”
—Arlo Crawford, *New York Times Book Review*
